The Japan Visit

Summary

Today's Friday sermon was based on Huzoor's recent Visit to Japan

The Promised Messiah (as) said that pious souls will accept Ahmadiyyat in Japan.

Inauguration of the first Mosque in Japan and receptions at Nagoya and Tokyo

The locals were conveyed teachings of Islam and they have changed their opinion of Islam

The message of Islam Ahmadiyyat reached more than 52 million people through media

An act of great violence occurred in Jehlum recently. An Ahmadi owned chipboard factory was set on fire

Huzoor said that he had been visiting Japan to inaugurate their first mosque.

Mosque Inauguration

If we examine the conditions in Japan, it seemed very difficult for this mosque to be constructed.

Guest Comments

Our lawyer who is Japanese, met and congratulated Huzoor while expressing his surprise ... He said that for me **this mosque is a wonder and a sign and an amazing thing.**

Media coverage

He said that I was fighting this case for you but I did not have any expectation of success. This is why, at one stage, I had told the people incharge of the Jama'at that it would be better for them to abandon this idea

Tokyo reception

But the reliance on God of the members of the Jama'at is strange indeed and they said to me that **you keep striving and Insha'Allah we will be granted this place and construct this mosque.**

This is indeed the grace of Allah, the Exalted, upon the Jama'at which He goes on bestowing upon the Jama'at thus increasing our faith in Him.

When Allah, the Exalted, decreed that this mosque should be constructed, He enabled us to construct the mosque despite all the obstacles .

Thus was established the first center for the spreading of the message of Islam in Japan

There is no doubt that one mosque or center cannot fulfil the needs for spreading the message of Islam in the whole country but this is certain that **we have laid the foundation for spreading the true teachings of Islam in the whole country.**

The Promised Messiah (as) said that pious souls will accept Ahmadiyyat in Japan.

With this mosque Allah has opened such avenues where tens of millions are receiving the message of Islam as was the desire of the Promised Messiah (as)..

He had expressed his intense desire for the spread of the message of Islam to the rest of the world and also exerted himself to achieve those goals, **he also stated with respect to Japan that a book should be written for the Japanese**

He wanted a most fluent and capable Japanese person to be paid a thousand rupees to translate this book and then he wanted 10,000 copies of this book to be printed and distributed in Japan.

Besides Holy Qur'an, there is literature being prepared and available in thousands and is being spread.

A few comments of people in Japan illustrates how the Japanese are viewing the true teachings of Islam as presented by the Ahmadiyya Jama'at.

A Priest:

As a Buddhist, it felt really nice to enter a mosque. We thought it is not permissible for non-Muslims and Buddhists to enter the mosque but not only were we welcomed warmly but by joining the prayer and the sermon we were heartily pleased and our impression about Islam changed.

Director of Public Affairs of Church of Jesus Christ:

We hope that this mosque will serve as a bridge between Islam and the Japanese people.

Member of City Parliament:

We welcome the mosque in our area and we hope that in accord with the stand of the Ahmadiyya Jama'at this mosque will become a center for those who love humanity and who love to serve humanity.

Member of Parliament (*traveled 1,000 km to attend*): When I saw this beautiful mosque, my fatigue was eliminated. The Ahmadiyya Muslim community has earned a great reputation through their humanitarian service at the time of the earthquakes and we hope this mosque will cause this good name of the Ahmadiyya Jama'at to increase.

University Professor: It was very important for Ahmadiyya mosque to be constructed in Japan. This was a great need. The role of the Ahmadiyya Jama'at in conveying the beautiful teachings of Islam in the world is very prominent. We hope that through this mosque ...real peace and security will spread in the world.

The Jama'at in Japan is small but many guests from various nations were visiting the reception There were as many guests as the local members. ...The Jama'at in Japan discharged their responsibility vis a vis hospitality in a very good manner to the Ahmadi from various nations.

Saturday evening a reception was held in the outside area of the mosque.

109 Japanese and eight non-Ahmadi guests attended. Guests included politicians, directors of international tourism, professors and other professions from society.

Priest: The leader of the Ahmadiyya community came at a right time, The fear we had of Islam during these days has been eliminated by the simple and beautiful way in which he has expressed the teachings of Islam.

Japanese Friend : I have never participated in an event like this. ...listening to the Khalifa ..the first time I realized the objectives for the construction of a mosque

A Japanese Orthopaedic Surgeon working with us for three years in humanitarian work : Persons following other faiths like Shintoism, Buddhism etc should have no difficulty in accepting the Islam presented by Imam of Ahmadiyya Jama'at.

Japanese Friend : Islam means peace and mutual security. These words of the Imam of the Ahmadiyya Jama'at have left a deep mark on my heart

Brazilian Exchange Student : I have learnt a great deal about Islam. I became quite emotional ... There is no doubt that his words can change hearts. He has told us that Islam does not teach violence. It is clear ...that media paints a picture of Islam which is not correct

Japanese Lady : I think this is a day that has changed my life. ...modified my perception of Islam. He said that this is not the era of Jihad with the sword. It is an era of Jihad with love. ...has made a deep impact upon me. I would say that all people should come and see this mosque and learn about Islam from the Ahmadis.

Japanese School Teacher: [with approx 18 students and five teachers] The Khalifa answered all of my questions ...I now have firm faith that Islam is a religion of peace. ... students were fearful of Islam but .. they have changed their views. In fact they.. began to feel very safe at the mosque. I want that this connection between Ahmadis and the Japanese goes on increasing..

Japanese Lady: today the Imam of the Ahmadiyya Jama'at answered all my questions. Now there is no fear of Islam left in my heart. Today I have also learnt that Islam is not a danger for the world but that in fact Islam can unite us all.

A Japanese student: this address was a message of peace. I think now that through this mosque the gulf that exists between Muslims and the other people will be removed and Islam will begin to spread in Japan.

The Promised Messiah (as) has said:

I have firm faith that even if a book on Islam is published by me in Japan, the Clerics will reach Japan to oppose me but only that happens which it is the will of Allah to permit happen.

A Pakistani cleric opposed Huzoor (aba) in Japan in 2013 and said that this was the mission of his father that no matter where the Qadianis go to preach they will go to oppose .

May Allah deflect all of enemy's evil ploys back at them. These days the news circulating is not current but is about the 2013 visit when they had said that they would ask the Japanese government that as the Ahmadiyya Jama'at should be banned in Japan

In Tokyo 63 dignitaries including a Chief Priest of Buddhism, the Chancellor of a University, a poet and many others from all walks of life attended the reception.

In such a short time, you have explained the true teachings of Islam. ... this message should be spread all across Japan in English and Japanese.

A friend: This speech of the Khalifa has opened our eyes and has made us aware of such things as we had never even thought about. Living in peace and security we could not even have imagined all the dangers you alluded to and how devastating war can be and how terrifying atomic attacks are.

Chief Reporter of Newspaper : If Ahmadiyya Jama'at had not come in front of us through their services to humanity, we would have deprived of seeing this beautiful face of Islam.

Japanese friend: today I learnt that how great a difference there is between ISIS and true Muslims. Whatever fears and worries that existed before in my heart all have been removed. .. we are going towards a third world war and the Khalifa drew our attention towards our responsibilities that we should do everything possible to stop this war.

Japanese friend: It is proven by today's speech **that Islam-Ahmadiyyat is a very powerful peace loving religion.** Most Japanese people think that Islam is a bad religion **but I bear witness that your Khalifa is a personification of peace.** The Khalifa advised that the errors committed 70 years ago should not be repeated and all that he said was based on truth.

A Guest: The address of Hazrat Khalifatul Masih II (ra) condemning the atomic attacks on Japan was an extraordinary thing. This makes clear the stand of the Ahmadiyya Jama'at about peace very clear.

A Buddhist Chief Priest: I am a Buddhist but having listened to the statements of the Imam of the Ahmadiyya Jama'at **my eyes have shed tears.**

After a meeting with Huzoor he prayed with Ahmadis and kept sitting there in the hall tearful. He had met Huzoor in 2013 as well and was told by a friend to pray to God that He should show him His Being. He had responded by saying that I do not even believe in God then why should I pray to Him. But **today this same Buddhist priest after meeting Huzoor again prayed with Huzoor and stayed there tearful.**

May Allah bless the Japan Jama'at with the ability to go on growing and expanding this widespread introduction of the Jama'at as per the wishes of the Promised Messiah (as). May they fulfill the hopes that the Japanese have from them.

The clerics are full of malice and rancour especially in Pakistan and they go on expressing it

One extreme act of great violence occurred in Jehlum recently. An Ahmadi owned chipboard factory was set on fire

They wanted the owner and the factory workers to be burned alive. But thank God they were not able to succeed in this nefarious goal.

In such testing circumstances the faith of the Ahmadis increases. It happened in 1974 when people lit fires and tried to put Ahmadis through a trial but they failed utterly in their objectives.

All their desires remained unfulfilled.

These trials cannot shake our faith. Indeed they strengthen our faith. If financial loss has occurred Allah replaces it. There are innumerable number of Ahmadis who underwent such trials and Allah, the Exalted, bestowed upon them immensely. If these owners have suffered financial loss it also will be replenished.

This chipboard factory belonged to Sahibzada Mirza Munir Ahmad Sahib, the son of Hazrat Mirza Bashir Ahmad Sahib (ra) - and then upon his passing away his children were the owners

I am happy that as it ought to be, the expression of a momin, a believer, upon occurrence of such a loss, was expressed by the owners. And their tongues uttered only expressions of thankfulness to God.

Allah, the Exalted, kept all their Ahmadi workers safe and also safeguarded the lives and honour of all the women and children. Alhamdulillah

The mob had gathered in their thousands and had arranged for bulldozers, brought all the necessary items to set the factory on fire and they kept gathering there for quite some time. The police and the other law enforcement agencies showed up very late into things, well after the fire had been set

People inside the factory did not realize what was happening so much so that it was even difficult for them to save their lives and run away.

The expression of patience and contentment that Mirza Naseer Sahib and his wife and their children have expressed is also worthy of mention. May Allah reward them.

By virtue of their blood relation with the Promised Messiah it is good that they showed such exemplary patience and courage. **Wealth comes and goes. The God that provided before will provide again and can and indeed will bestow in greater measure.**

One good thing that has happened is that some non-Ahmadis have also raised their voices against this attack. One TV program also discussed this with the local politicians. The presenters spoke against this and the participants in the program said that they would go after the culprits and seek justice.

After burning the factory, the mob attacked two of our Jama'ats and attacked the mosques. One of the mosques has been sealed. First the mosque was attacked by the maulvis, they took out the prayer mats and lit the items on fire, then they washed the mosque and offered prayers there. However the police took it from them and sealed the mosque. So although the mosque is not in their possession these two Jama'ats are still in considerable danger.

May Allah safeguard the Ahmadis in those areas. May Allah enable justice to prevail in Pakistan. May Allah also provide for the factory workers who are now unemployed. Aameen!
